

Bonnie Bone

Wednesday 22nd July 2015

Bonnie was born in May, but we do not know the day. When she was over 8 weeks old, she was allowed to leave her parents.

In July 2015, she went to live with her new owner. This photo was taken on the day she came home.

Who is Bonnie Bone?

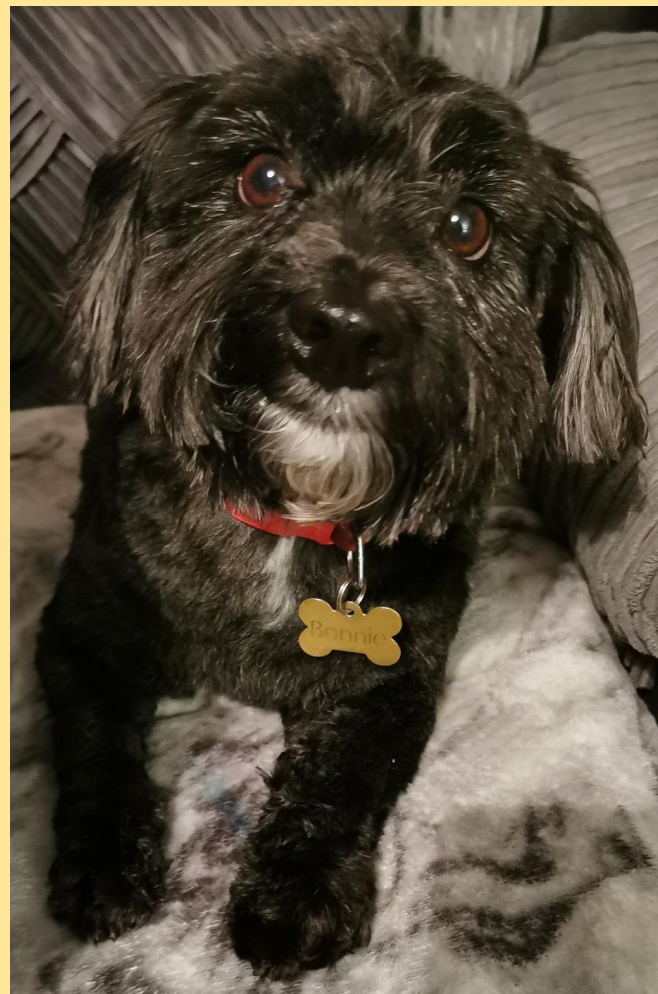

Bonnie was born in Liskeard, Cornwall.

Just like us, she gets her features from a little bit of her Mum and a little bit of her Dad.

Bonnie's Parents

Look closely at the photo of Bonnie's parents.

Compare Bonnie to her Mum and Dad.
I wonder what features she shares?

Breed Information

One of Bonnie's parents is a Westiepoo and the other is a Yorkipoo. This means Bonnie is a mixed breed dog. Let's find out more...

West Highland Terrier

Poodle

Yorkshire Terrier

West Highland Terrier

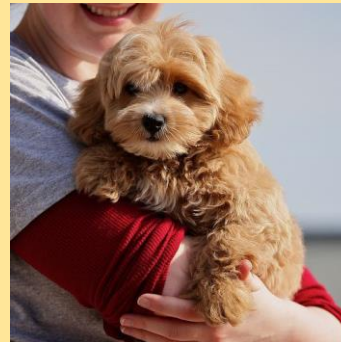

Poodle

What is a Westiepoo?

A Westiepoo is a cross breed, a mix between the West Highland Terrier and a miniature Poodle. Their character traits include loyalty, intelligence and being affectionate.

Here are some photos of Westiepoo dogs.

Yorkshire Terrier

Poodle

What is a Yorkipoo?

A Yorkipoo is a cross breed, a mix between the Yorkshire Terrier and a miniature Poodle. They are known to be very affectionate and relish the company of people.

Here are some photos of Yorkipoo dogs.

What breed is Bonnie?

When Bonnie was little, the vet told us that Bonnie is a Yorkipoo-Westiepoo. This means she has a mix of these three different breeds:

West Highland Terrier

Poodle

Yorkshire Terrier

What does Bonnie's breed tell us about her personality?

Bonnie is loyal and very loving. She likes to be with people and that's why she is always thrilled to spend time with you all. Sometimes, she wants to be with us so much that we cannot help but feel that she might even think that she is a human...

With so much love to give, Bonnie is the perfect dog for our school because she wants to spend her time with everyone. She prefers not to be at home all alone in the day, so instead each morning she travels to school with Mrs Jago. It's important she stays safe, so she has her own seat belt.

Bonnie's gentle nature means she is often happy to join in with the fun we have at school.

All that good behaviour pays off though...

She definitely likes to be comfortable...

...enjoys being part of a chat...

...and even tries to get a lift home in Mr Nicholls' car!

How do we care for Bonnie?

Keeping Bonnie happy and healthy is very important. There are lots of ways we can all play our part to do this.

Dogs should feel safe, content and healthy. Bonnie sometimes likes to play and no tennis ball is safe!

When Bonnie visits a classroom, she will need to know where her seat is. In Year 6, she has her very own sofa.

She knows this is her safe space and the spot she should stay around.

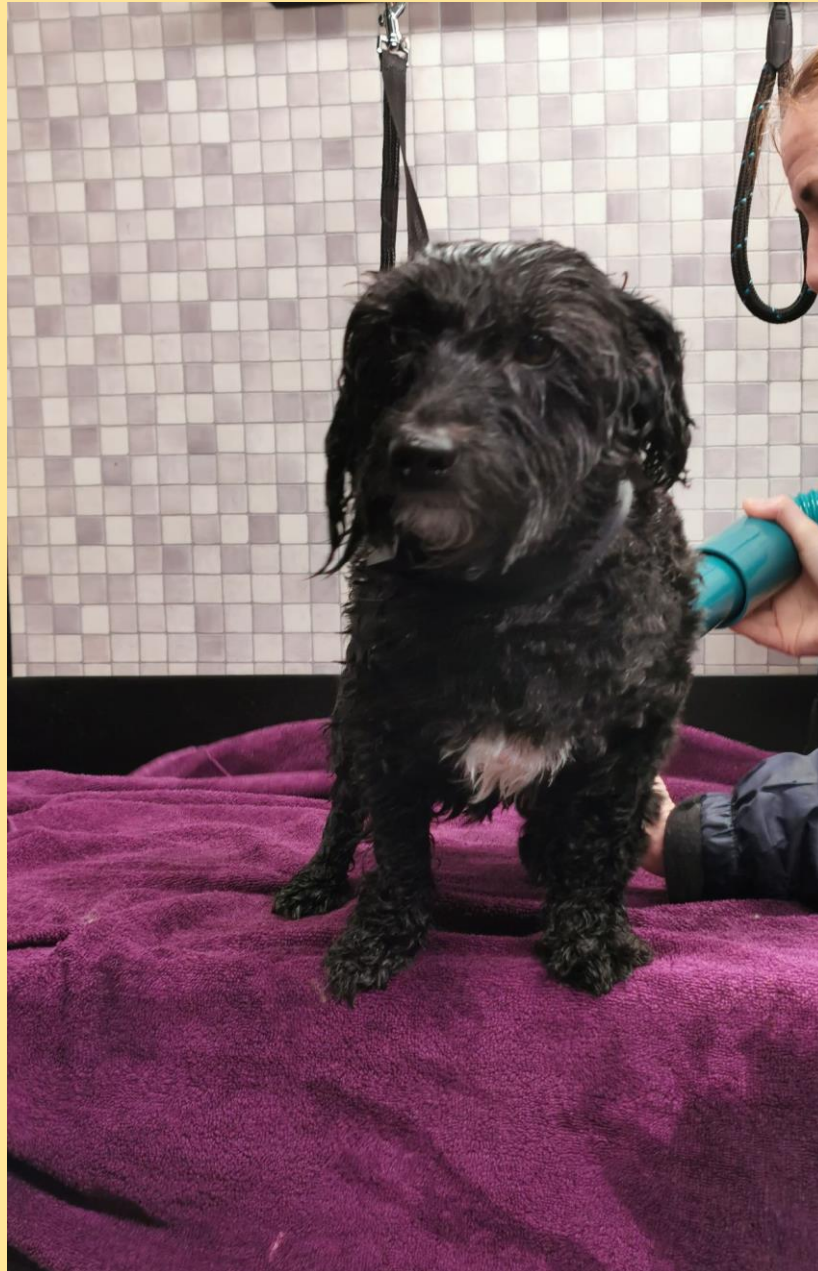

It is very important that Bonnie eats the right kind of foods to keep her body systems healthy.

Bonnie's routine is to eat at 10am at school and 6pm when she gets home for her evening meal.

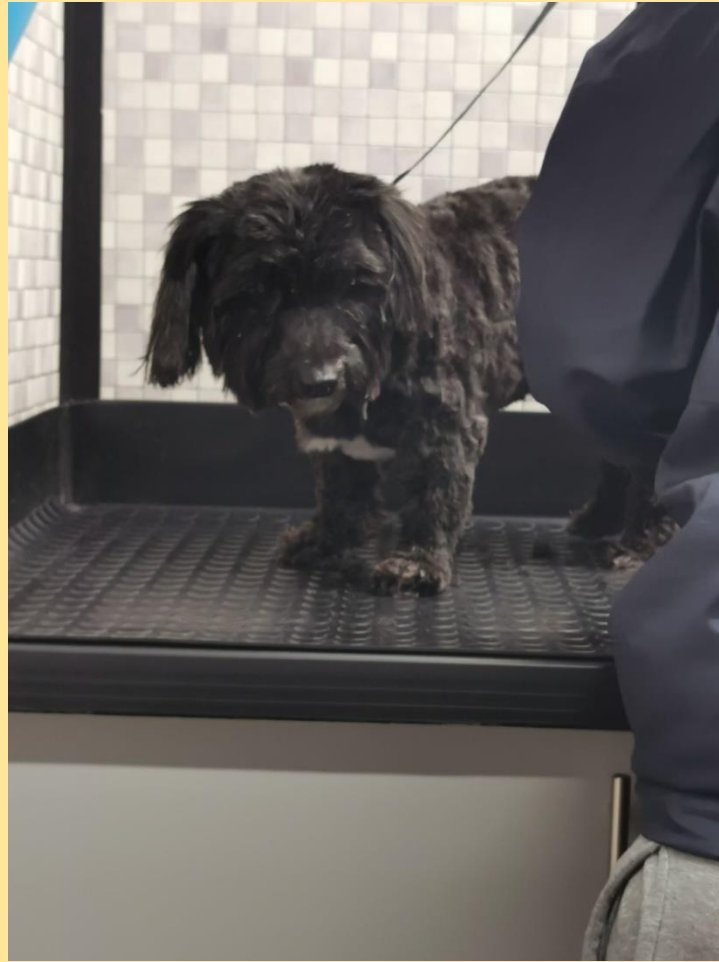

Although she's not always keen, Bonnie needs to see a groomer regularly.

They wash, shampoo and cut Bonnie's fur.

This helps to keep her fur neat (especially important when the weather is hot) and her claws trimmed.

Thank you for helping us to
look after our school dog.
