

Year 4 Home Learning Tasks

Email will be the only form of two-way communication during this time. If you have any urgent queries please contact your child's teacher during school hours (8.45-3.10 Mon-Fri) and they will respond to you as soon as they can. If your class teacher is unavailable, they will have an automated response to your email and you will then be able to contact Mr Nicholls or Miss Morton instead: head@nanpean.cornwall.sch.uk and cmorton@nanpean.cornwall.sch.uk

Class Teacher Email: jjago@nanpean.cornwall.sch.uk

READING

You have taken two reading books home with you. Please find the time to read for at least 30 minutes per day. Once finished, you may move onto any other reading material that you have at home.

Work through any Year 4 reading comprehension tasks from Twinkl. One has been sent home with you to start you off: *Tour de France*. For a quick place to know where to start, just type into the search box: **LKS2 Reading Comprehensions Bumper Resource Pack**. You will discover 19 more activities in this pack, but there are many more reading comprehension resources for Year 4 and for LKS2 (Lower Key Stage 2). I would particularly recommend the **LKS2 60 Second Reads** bumper pack.

Follow the link on the school Facebook and website page to access your free parent Twinkl account. This will give you access to thousands of resources.

WRITING

Practise one each of the Year 4 Exciting Sentences. Mini posters have been provided in your home learning books to help remind you what they are. Remember that some of our sentences are revision from prior learning and this means that we have included sentences explored in previous classes as well as the ones intended for our class.

testbase

Complete the Grammar, Punctuation and Spelling Tests on the following links.

Write the answers in your books: <https://mepucuy.exampno.net/#qtarget>

Practise your spellings as often as possible using your login for the following site:

MATHS

Practise one of each of the following arithmetic questions daily if possible. Generate your own questions by randomly selecting your own numbers. An example of methods has been stuck in your books.

$$3267 + 5439 =$$

$$2876 - 1462 =$$

$$543 \times 3 =$$

$$4578 \div 4 =$$

Practise your basic skills using your logins for the following websites:

HISTORY

Our new topic for the summer term will be based around crime and punishment. Find the answers to the following questions and design a poster to demonstrate what you have learnt helping you remember these key facts.

1. Who was Dr Crippen and what was famous about his crime?
2. What is a Bow Street Runner?
3. When was the Metropolitan Police created?
